What emerges when evoking the General Chapter?

Gratefulness, happy – we have decided to do and have done. We have taken step towards something new. Isn't easy but wonderful.

Makes us to think about our mission in the world, church and in the congregation. There is a continuation and has bear fruits. It is a process to continue journeying, waking on it.

There is a gradual process of implementing the fruits of XVII General Chapter. In this time of pandemic, we are still united as one family with one heart, looking after each other within the congregation and towards our brothers and sisters who need the most.
