Some important matter that we see during the sharing

Are :

- Formation: in all Level and in all aspects
- Maturity in leadership
- Change of mentality, work as one to find solutions of challenges
- Objectivity
- Interculturality: we need to go out of our comfort zone of culture and costume and be courage for change.
- Relationship; toward oneself, God, and others
- to be more Intune with oneself, looking into oneself, ready to let go what is not essential and moving forward with better perspective
