

meet, in the light of the Risen One ... share listen to and find the way God asks us together

Deep look: learning to look and discover the positive

confidence and risk openness and not being afraid

: creativity:

Serenity - focused

walk together

listen

renew... confirm the path of the Chapter...

Relying on the strengths we already have

: look more at the risen one so that he can see from His gaze of love all and all

The deep gaze always sees in any reality an OPPORTUNITY and possibility of change....

We recognize that it has also been an opportunity to review our way of encouraging, exercising government and learning new tools."

It was a renewing confirmation of the SEVENTEEN chapter,

We have touched diversity yet complementary and interconnected congregational body

Sustainability plays with all the goods we have and heritage ... people, the shared charisma, the economy and shared subsistence administration; human resources : care for young sisters, care for those who carry the burden of responsibilities (working but not burned-out women):.. care for older sisters

The way the governance ... how to exercise co-responsibility: on a synodal path

We realize that we will follow the path Involving the entire Congregation, to the base (the laity)

Then everyone will wonder and ask: what should I do? What ARE we going to do?

a. Survey: it will give us guidance to continue this process taking into account the discipline made and confirmed by your contributions this will lead to concrete actions. We need to rest the fruits of this process all and we will meet soon to talk about the steps to follow. For the path we have taken we want to continue it - and expand it to communities, lay people ... (we will ask for suggestions for the date)

b. Communication of what has happened and what has emerged this week to the rest of the Congregation: we wanted to do it in a testimonial way. One is offered from each organism to record a short 1 Min video.

What this meeting has meant to me and to the Congregation.... ;

The best way to communicate is intentional: practice what we learned; for example in our councils; in other teams and in assemblies and chapters; ... as a style of our discernments

c. Potential example of the process and structures to be given to work and carry out priority issues

We have a challenge and potential to renew our ways of exercising government... attitudes and structures. We need to deepen and analyze how to channel this pop-up call. Paradigm shifting is a long process but it is born in the heart of each one.

To make happen the change we need - we welcome the suggestions and instructions that have been proposed these days. For what does not translate into concrete commitments dies.

That is why one of the proposals of the groups that has emerged is the accompaniment. From the Discernment Team we recommend it too and it will be good for us.

Among these instruments: the accompaniment option (such as Emmaus disciples) for interrelationship. Between us – to accompany each other in spiritual conversations. We need it, but we can offer it as an expression of mutual care. >Ex: systematic encounters. Possibility to choose one of the sisters you'd like to dialogue, walking in company. Where to follow the conversations: the "TRIALOGOS". Every two weeks, every month... to see how we are putting in life those appreciative looks, as God calls us to strengthen discernment...; share how we're overcoming the barriers, negative looks, .. What knots do we have to untie?

Wouldn't this be a way to really live a congregation that takes care of the best of each that is its vocational Claret life and mission. ? And above all cultivate the attitude of listening that predisposes me for all other things...

Trully the Lord has Risen ... we've went out it was night and it's dawn! ... And the mandate is always the same and always new: announce to all what you have seen and heard.

Ana Maria - thanks David and Paul

end... sisters and technicians...

Have a safe journey back!!!
