Dear Sisters

Greetings of peace and joy of the Lord.

We express again our gratitude and joy for the desire to walk together on the path "into deep sea", supporting each other as sisters in the process of self-transformation.

We continue to enter the sea of our life with the third stage of our journey: **"The house was filled with the scent of perfume"** *Emotional and corporal affective process in the different stages of a Woman following Jesus.*

The material has been prepared by María Rosaura González Casas, Mexican and daughter of the Society of Saint Teresa of Jesus, founded by Saint Enrique de Ossó. She holds a PhD in Psychology from the Pontifical Gregorian University. She has written numerous articles and several books. She is currently a member of the Commission for the guardianship of minors and vulnerable adults of the International Union of Superiors General. She works full time at the Institute of Psychology of the Pontifical Gregorian University.

The material is abundant and intense, it presents seven vital stages. It requires time and willingness to deepen and the most important thing is that each one can focus on the aspects that respond most to their own reality and experience.

Finally, just a reminder that on 19 November we will meet to celebrate and share the fruits of this third stage. We renew the invitation to enter into the dynamic of the conversations of growth.

We pray that the Lord will help us to concretise our Congregational Path and that our founders St. Antonio María Claret and Venerable María Antonia París will intercede for us together with Mary Immaculate.

With love and prayer
